 Premier Health Orthopedics

NOT TODAY GRAVITY

When Ella suffered a broken clavicle in a vehicle collision, her family was concerned the injury could sideline her pursuit of athletics.

After surgery and six-week recovery, she once again is active in sports.

“I cannot thank Premier Health enough for the care and services they provided me and my family,” said her dad, who is also a Premier Health orthopedics patient.

Ella, age 13 | Clavicle Surgery
